

**BL controls**

Bluetooth Controller  
8 Channels

**BLE node C8**

Printed

**1. Lighting Control**

**A.** To control your lights with the BLE node C8 controller please download the Casambi App available for Android (Google Play) and iOS (App Store) and follow the instructions on the attached manual.

**2. Wiring Diagram**

\* The relay must be protected against inductive over voltage spikes, i.e. it must have a flyback diode. Do not connect a typical PCB relay without the diode. RELAY and SENSOR outputs are optional.

PROJECT  CLIENT  TYPE

Solid State Lighting is sensitive to power fluctuations  
Surge protection is highly recommended for all LED lighting products and should be on a designated circuit to protect against premature failure  
Lack of surge protection may void your warranty
