

# 3 Side V RGBW

BL Neonview

Diffused, Flexible, Linear LED Lighting,  
24VDC, Constant Voltage, Vertical Bend,  
3 Sided Light, Silicone, Color Changing

Emitting light from 3S surfaces of its square shaped profile, 3 Side V RGBW delivers the widest beam angle of any surface mounted linear LED and is the optimum choice for high visibility, direct view applications where a large illumination range is desired, such as building outlines, artworks, straight and curved surface edges. The Silicone encapsulated diffuser is rated for a range of operating temperatures from -40° F to 131° F (-40° C to 55° C) for sustained ability to weather the elements, even in the most extreme environmental conditions, and bends vertically across the top of the light.

**Dot-free** | **Seamless connections** | **-40°F to 131°F (-40°C to 55°C)**

**3 Sided Light** | **Color Changing**
