

Please note that these instructions are guidelines only and in no way supersede any construction or installation standards.
Local building and electrical codes should be consulted before installation.

ATTENTION

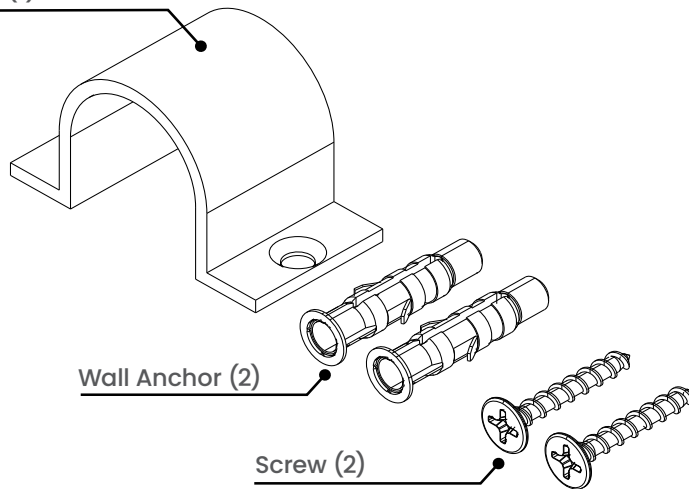

- There is potential danger of electrical shock when operating electrical components.
- Make sure power is turned off before installation.
- Allow for heat dissipation and adequate ventilation.

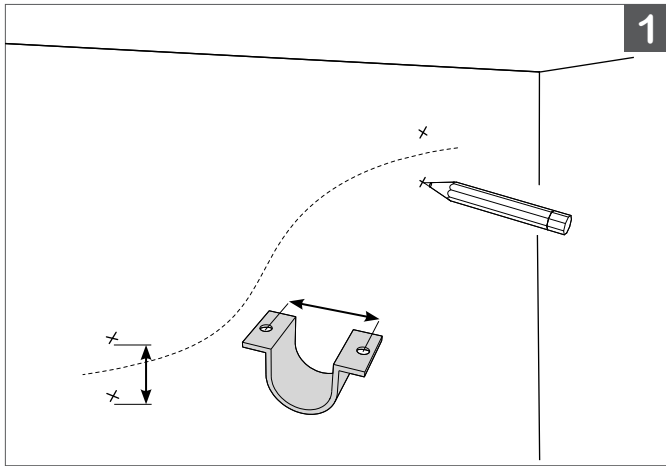

INSTALLATION LAYOUT

COMPONENTS

Mounting Clip (1)

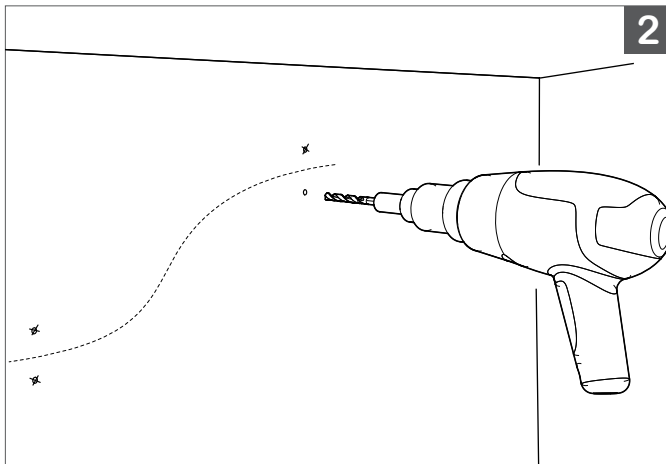

1.

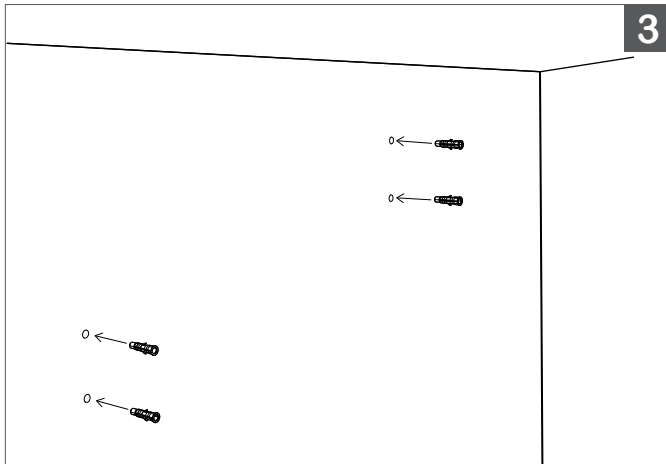

Draw the centerline for the desired shape of the **N360** product.

Using the mounting clip as a guide, mark drill holes position.

2.

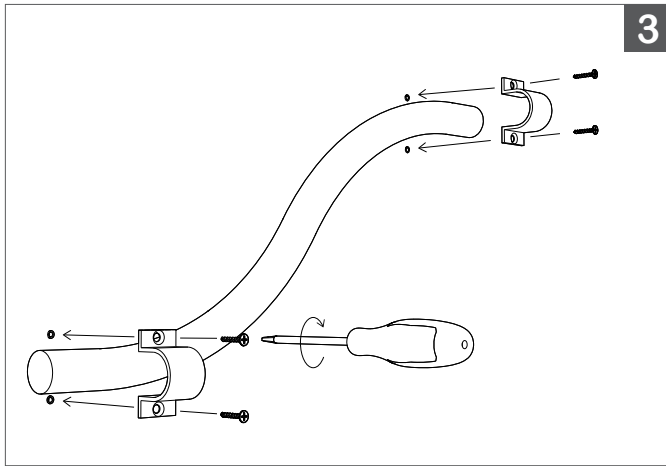

Drill holes at the marked positions for the mounting clips.

3.

Insert anchors into the drilled holes.

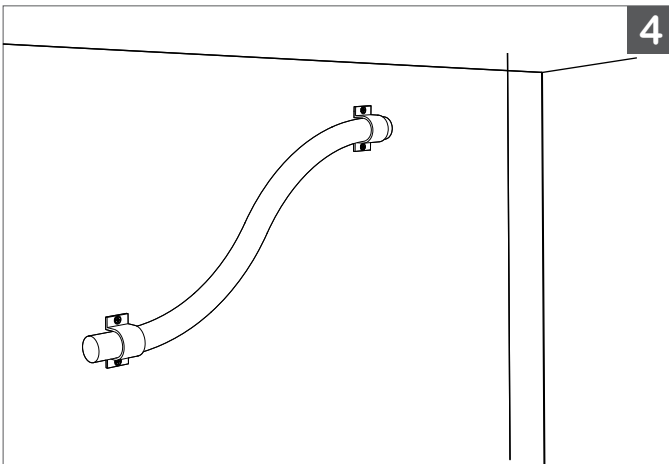

3.

Slide the mounting clip onto the **N360** product and align the screw hole of the clip with the pre-drilled holes on the wall.

Using a screwdriver, secure each mounting clip with two screws until the light is firmly installed. Ensure all screws are tightened evenly for a secure installation.

4.

DONE.
