

## **BL fixFORM**

Indoor Low-Voltage Suspension Kit Designed for use with **BL fixFORM** Series

# SPK

Printed	

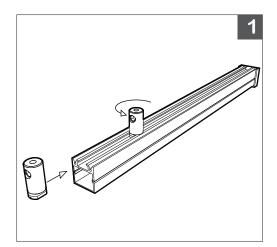

Please note that these instructions are guidelines only and in no way supersede any construction or installation standards.

Local building and electrical codes should be consulted before installation.

#### **ATTENTION**

- There is potential danger of electrical shock when operating electrical components.
- Make sure power is turned off before installation.
- Allow for heat dissipation and adequate ventilation.

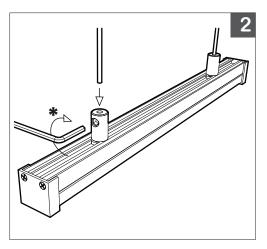

## **SUSPENSION KIT**

1.

A. Align the hanger component with the groove in the back of the base track, and insertit.

B. Twist and tighten the hanger when correctly positioned along the base track.

2.

A. Insert the suspension cable into the top of the hanger. B. Tighten grip on the suspension by turning the hex bolt, on the side of the hanger, clock-wise.

**TIP:** A minimum of two hangers per section is recommended for a secure hold.

# \*Important!

Avoid over tightening the hex bolt to prevent short circuiting. Only tighten set screw until contact with wire plus 1/8 turn.

PROJECT	CLIENT	TYPE	

Solid State Lighting is sensitive to power fluctuations
Surge protection is highly recommended for all LED lighting products and should be on a designated circuit to protect against premature failure
Lack of surge protection may void your warranty
