

BL flexFORM SIDE RGBW

Flexible, Linear LED Strip Lighting, Side-Emitting
Polychromatic, 24VDC, Constant Voltage

Integrating highly controllable RGB and true white CCT diodes into a single, dynamic chip, our flexible RGBW LED strip features side-emitting diodes that disperse light from the edge, for easy integration into complex shapes, such as circular coves, contours and height restricted spaces. Add color changing effects to circular coves, contours and height restricted spaces, in commercial, residential, and retail environments.
