

Please note that these instructions are guidelines only and in no way supersede any construction or installation standards.

Local building and electrical codes should be consulted before installation.

ATTENTION

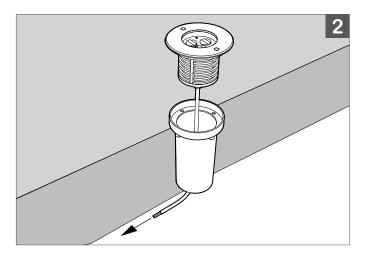

- There is potential danger of electrical shock when operating electrical components.
- Make sure power is turned off before installation.
- Allow for heat dissipation and adequate ventilation.

1.

Create hole for recessing **DS114** with a 4" (102.5mm) OD. The recessed depth must align **DS114** flange flush to ground level.

IMPORTANT: Ensure proper drainage has been included before proceeding.

2.

Install boot and run wiring.

TIP: Listed flexible conduit is recommended for in and out connections so to ease fixture position and adjustment during installation.

111 - 8838 Heather St. Vancouver, BC. Canada. V6P 3S8
