

# RN1808

BL Fixform

Indoor Recessed Aluminum Channel  
Designed for use with **BL Flexform** Series

**RN1808** is a niche linear lighting solution with an innovative dual-sided LED strip design, allowing installation on both the top and bottom. Integrated dual silicone optical diffusers ensure exceptionally bright, soft, and uniform illumination. Ideal for cabinet lighting, retail displays, and residential furniture applications. With a slim width of just 0.33" (8.5mm), it is a perfect fit w/integration with the BL Flexform Series, and with a depth of 0.68" (17.4mm), this recessed aluminum extrusion is ideal for flush installations across various applications.

Solid State Lighting is sensitive to power fluctuations. Surge protection is highly recommended for all LED lighting products and should be on a dedicated circuit to protect against premature failure. Lack of surge protection may void your warranty.

Designed & Assembled in North America.

Specifications subject to change without notice. Please refer to our website at [bllighting.com](http://bllighting.com) for current technical data.
