

## ATTENTION

- There is potential danger of electrical shock when operating electrical components.
- Make sure power is turned off before installation.
- Allow for heat dissipation and adequate ventilation.

Please note that these instructions are guidelines only and in no way supersede any construction or installation standards.

Local building and electrical codes should be consulted before installation.

1. Cut the desired length of 16AWG/2 Wire

2. Using a small brush, apply Ox-Gard anti-oxidant compound at the bottom of the Lamp Holder where the pins are located

3. Secure Lamp Holder onto the Wire

**IMPORTANT**: Make sure the contacts are aligned in the same direction to ensure polarity is congruent along the line.

## BL LIGHTING

111 - 8838 Heather St. Vancouver, BC. Canada. V6P 3S8
P: 1-604-874-4405 E: info@bllighting.com
Copyright © BL INNOVATIVE LIGHTING. All Rights Reserved.

Solid State Lighting is sensitive to power fluctuations. Surge protection is highly recommended for all LED lighting products and should be on a dedicated circuit to protect against premature failure. Lack of surge protection may void your warranty. Desianed & Assembled in North America.

Specifications subject to change without notice. Please refer to our website at bliighting.com for current technical data. ASSEMBLY INSTRUCTIONS

5

- 4. Align Lamp Holder onto Holder Base
