

The Stream Deck 32 is a customizable control interface designed to simplify and speed up creative workflows. With 32 programmable LCD keys, it provides instant one-touch access to applications, scenes, shortcuts, and macros with clear visual feedback. The intuitive Stream Deck software supports drag-and-drop setup, multi-action commands, and Smart Profiles that automatically switch with active applications. Compatible with Windows and macOS, the Stream Deck 32 integrates seamlessly with popular streaming, editing, and productivity platforms, making it a powerful control solution for professional environments.
