

The **Stream Deck 6** is a customizable control interface designed to simplify and speed up creative workflows. With 6 programmable LCD keys, it provides instant one-touch access to applications, scenes, shortcuts, and macros with clear visual feedback. The intuitive Stream Deck software supports drag-and-drop setup, multi-action commands, and Smart Profiles that automatically switch with active applications. Compatible with Windows and macOS, the **Stream Deck 6** integrates seamlessly with popular streaming, editing, and productivity platforms, making it a powerful control solution for professional environments.
